

1. VISION

TOOL: V/TO (VISION/TRACTION ORGANIZER)

Core Values • Core Focus • 10-Year Target • Marketing Strategy • 3-Year Picture • 1-Year Plan • Quarterly Rocks • Issues List

The foundational document that defines where the company is going and how it will get there. Replaces the traditional business plan.

2. PEOPLE

TOOL: ACCOUNTABILITY CHART & PEOPLE ANALYZER

One Person Per Seat • 5 Core Seats • 3-5 Accountabilities • GWC Evaluation

Structuring the organization for scalability. If two people are accountable, nobody is accountable.

3. DATA

TOOL: WEEKLY SCORECARD

5-15 Numbers Max • Leading Indicators • Single Ownership • Weekly Goal

Running the business on objective numbers. When a number drops below goal, it drops to the Issues List.

4. ISSUES

TOOL: ISSUES LIST & IDS FRAMEWORK

Identify root cause • Discuss perspectives • Solve with action items

Becoming great at solving problems throughout the organization—setting them up, knocking them down, and making them go away forever.

5. PROCESS

TOOL: CORE PROCESS DOCUMENTATION

20/80 Rule • 8 Core GC Processes • FBA Standard

Systematizing the business to create consistency, scalability, and higher margins across all projects.

6. TRACTION

TOOL: ROCKS & L10 MEETING

90-Day Rocks • L10 Meeting Agenda • Weekly Discipline

Bringing discipline and accountability into the organization to execute the Vision.

THE GOLDEN RULES

THE FOUNDATION RULE

"We build the V/TO first. We build the Accountability Chart second. We do not move to the next step until the foundation is solid."

THE ACCOUNTABILITY RULE

"One person per seat. If two people are accountable for a function, nobody is accountable."

THE SCORECARD RULE

"No narrative in the Scorecard review. The number is either on track or off track."

THE ISSUE RULE

"Three weeks red equals an Issue. If a metric misses goal for three consecutive weeks, it must be IDS'd."

THE EXECUTION RULE

"90% To-Do completion rate. If the team is completing less than 90% of weekly To-Dos, that is itself an Issue."

ARCHITECTURE NOTE:

This is not a menu of options. It is an interlocking architecture. Every component relies on the one before it. Skip a step, and the system breaks.

THE MEETING PULSE: THE RHYTHM OF EXECUTION

W

WEEKLY L10

90 Minutes. Leadership team reviews Scorecard, Rocks, and To-Dos. 60 minutes dedicated to solving Issues (IDS).

Q

QUARTERLY PLANNING

1 Full Day. Offsite. Review prior quarter, review V/TO, establish next 90-Day Rocks, resolve major structural Issues.

A

ANNUAL PLANNING

2 Full Days. Offsite. Deep team health building, complete V/TO review, establish 1-Year Plan and Q1 Rocks.

S

STATE OF COMPANY

Quarterly. 45 Minutes. Visionary shares the V/TO, prior quarter results, and next quarter Rocks with the entire company.
